

DAHLIAS IN THE SOLAR SYSTEM

Dahlias Around the Sun

This arrangement displays one large yellow or gold colored dahlia – center facing the front. Small or pompon dahlias in white or light yellows represent the moons and stars. They are added in an arch design behind it.

Dahlias Around Mars

This arrangement focuses on at least three varieties of red dahlias. It is viewed from all sides.

Dahlias in the Milky Way Galaxy

Earth is part of the Milky Way galaxy. This arrangement uses at least four white varieties. It is viewed from all sides and has a height of 12-15 inches.

Dahlias that are Dwarf

There are at least five officially recognized dwarf planets. This arrangement uses at least three small containers – diameter under six inches each - displayed side by side. It uses a variety of smaller sized dahlias.

Designer's Choice

This arrangement compliments the theme with a variety of dahlias displayed. A small card attached details its NAME and the connection to our theme.
